### Pedi-Neb™ Pacifier Nebulizer

The PediNeb™ was designed to enhance the delivery of aerosolized medications, while reducing the apprehension encountered by young patients.

- ▶ Pacifier. Calms the infant/toddler during aerosol treatment. Medication is inhaled through the nose, not the mouth.
- ▶ Medication Port. Directs aerosolized medication to the nose and eliminated medication waste associated with the “blow-by” technique.
- ▶ VixOne small volume nebulizer. Clinically proven, providing superior medication delivery performance.
- ▶ Easy to operate, clean, and efficient.
- ▶ Developed by a pediatric nurse practitioner.
- ▶ Latex Free
